ABOUT ME

Creative and detail-oriented WordPress Developer with over 6 years of experience delivering custom websites, themes, and plugins. Currently working with Enine Arts LLC (USA) as a senior WordPress developer, specializing in Elementor and Divi-based builds, performance optimization, and client-ready solutions. Strong skills in PHP, JavaScript, and visual builders, with a proven ability to lead web projects from concept to deployment in a remote, international setting.

WORK EXPERIENCE

Enine Arts LLC (Remote - USA) - Senior WordPress Developer / Full Stack Developer

2024-NOW

At Enine Arts, I developed a full-stack project management system and managed large-scale eCommerce websites using WordPress. I specialized in building custom themes and plugins, and worked extensively with Elementor and Divi to deliver fast, secure, and user-friendly solutions tailored for high-performing businesses.

- Lead WordPress development, managing multiple client sites with Elementor and Divi
- Created and maintained custom plugins and advanced theme features
- Worked closely with designers to deliver pixel-perfect and SEO-optimized websites
- Integrated third-party APIs and tools, ensured cross-browser and mobile compatibility
- Managed performance tuning, security updates, and client-specific customizations
- Supported weekend shifts and U.S. time zone operations

Vicode Technology (Pvt) Ltd - Frontend Developer

2022-2024

A software company focused on modern web applications.

At Vicode, I developed dynamic user interfaces using React, Tailwind CSS, and Redux. I collaborated with designers to create engaging, animated UIs and improved app speed with techniques like lazy loading and performance optimization.

- Built modern, responsive user interfaces using React, Tailwind CSS, and Redux
- Worked closely with UI/UX designers to transform wireframes into interactive, high-performance interfaces
- Increased user engagement by implementing smooth animations with GSAP and Framer Motion
- Optimized frontend performance using lazy loading, code splitting, and asset minification

AP Construct (Pvt) Ltd - WordPress Developer

2020-2022

A construction-focused company with a digital presence.

At AP Construct, I developed and maintained WordPress websites for business and eCommerce use. My role included WooCommerce integration, plugin customization, and regular site updates for performance, SEO, and security.

- Built modern, responsive user interfaces using React, Tailwind CSS, and Redux
- Integrated WooCommerce and payment gateways
- Handled site updates, backups, SEO, and plugin compatibility
